Ref.- Board's C.R.No.11101 Abk/37 dated 23--7--1937.

--

ENCLOSURES_____

SPARE COPIES_____

I invite attention to correction slip No.33 to Standing Order 166(1), Distillery manual, Vol.II where no duration of inspection is laid down for the Asst. Commissioner for Distilleries in a circle where there is an Inspector. It is only where there is no Inspector that a duration has been fixed for the Assistant Commissioner for Distilleries as he, doing the duties of an Inspector, has to check every entry in the registers (item No.38 Questionnaire under Distilleries, S.O.166 Distillery manual, Volume II). The Assistant Commissioner for Distilleries may therefore check a percentage of the entries or may do a complete inspection in which case he may exempt the Inspector from an inspection in the quarter. In either case no duration has been fixed for the Assistant Commissioner for Distilleries who has been given a discretion in the matter and the necessity for fixing a duration now is not apparent. However, since I took charge as Assistant Commissioner for Distilleries, I find it necessary to do a complete inspection checking every entry in order to fill in the gaps by the Inspectors who by either reporting sick or

by

by frequent changes have not been able to comply with the orders in correction slip No.33, S.O.165(1) of the Distillery Manual, Vol.II; and if the inspections are not done at the intervals prescribed there will be a decline in efficiency and the officers in charge will become careless and lax.

2. I again invite attention to the correction slip No.33, S.O.165(1). It will be seen that where there is no Inspector the Assistant ~~Inspector~~ Commissioner for Distilleries is required to inspect the ~~xxxx~~ big Distilleries like Samalkot once in four months, the other Distilleries and warehouses once in 6 months and his duration of inspection is fixed at 5 days for Distilleries other than Samalkot and 4 days for Warehouses except Bezwada, whereas, where there is an Inspector, the latter should inspect the distilleries except Samalkot, and the Warehouses 3 times in a year and the duration of inspection is limited to 4 days for the Inspection of Distilleries and 3 days for Warehouses. The intention of the order is clear- that as the Assistant Commissioner for Distilleries has to inspect the distilleries, warehouses etc., in the whole Presidency and has more administrative work to do, the interval of inspection is longer as also the duration. A.

3. I spent the greater part of the day on 1.6.37 and 2.6.37 in checking the entries at Father Muller's Institution and found that an Inspector could not possibly check the entries in less than 4 days and therefore suggested that the duration of inspection be fixed at 4 days. In deference to the Board's enquiry I suggested that the same duration be fixed for the Assistant Commissioner for Distilleries who at present is doing ~~the inspection~~ what is required of an Inspector during his inspection, for reasons stated above

above. If four days have been fixed for the Inspector, there would appear to be no reason for fixing a lesser duration for the Asst. Commissioner for Distilleries contrary to existing orders in Correction Slip No.33, S.O.165(1) where there is an Inspector in charge of a circle.

4. Before inspecting the Alembic Laboratory, and the Essence Factory of the ~~East India Drug~~ and Essence Co., I had to check the books ~~for~~ 7 days in advance at nights at my house before I commenced the inspection as the transactions in the last quarter were as much as in the three preceding quarters (vide my inspection notes). The Karnataka Chemical and Pharmaceutical Laboratory is at a standstill and the transactions are few. The time is spent in taking the huge stock of 110 - 120 batches in the process of work and comparing the carried over entries from page to page and book to book. When I inspected Spencer & ~~Sons~~ Co's Laboratory, I spent the first day from 9 a.m to 5 p.m. at the Laboratory and attended to my tappal thereafter at night, while on the second day I inspected the Laboratory from 10 to 2 p.m. and attended office thereafter. If one has to set aside a part of the day for his tappal, a laboratory working at a normal ~~line~~ level cannot be efficiently inspected in less than 7 days. It is for all intents and purposes a warehouse.

5. There is no comparison between a Pharmaceutical Laboratory working on a scale like Spencer's or Alembics and a Homeopathic laboratory working at high pressure like Father Muller's. At Spencer's or Alembics, at most a dozen batches are prepared at intervals of 4 or 5 days and remain in process from a week to a month and the issues are at intervals once or twice a week; whereas at Father Muller's preparations are manufactured daily except Sundays and holidays and removed the same day. 4362 dilutions were

were prepared in 58 working days or 77 per diem and twice as many entries will have to be checked in the M.P.2 with D.5(a) after working out the proof equivalents for the same number; as many calculations for proof spirit content and duty for as many in the D.37 besides the check on wastages and the receipts and expenditure in each register and the quarter's ~~outputs~~ abstracts and the stock-taking statements of spirit and of spirituous preparations. I enclose for perusal one M.P.7 representative of average transactions for a day and also the M.P.7s of Messrs, Spencer & Co., for the whole quarter ending 31-3-37.

I regret that it is beyond me to inspect the Laboratory efficiently in two days and it is doubtful whether the Inspector or myself will be able to inspect the Laboratory within 4 days as proposed.

10/3/37

Assistant Commissioner
for Distilleries.

C.R. No. 11101 1937-C

Inspection – Pbl. Laby – Powers

Whether instructions, standing orders issued by the Govt. in relation to the A.C.D. Act

From the A.C.D. No. 1843/37 dt. 16.7.37

A.C.D. asks

extension of the powers of the Pharmaceutical Laby (Dr. Mullick) of making inspection of the premises of the licensees under the Act.

P'.

P'. In the course of inspection of premises viz. Spencers, Kamakshi Cal. Ltd., Nath & Sons, Bengal Chemicals, Alembic Chemical Works, Pbl. Laby officials find that the A.C.D. Act does not confer any power to enter the premises of the licensees. This may be noticed that in the A.C.D. Act no power is given to the Govt. to make rules for the inspection of premises by the Govt. Analysts. The Govt. Analysts may not be issued with proper instructions to inspect the premises of the licensees under the A.C.D. Act.

Draft reply

Duration of inspection by the A.C.D. has not been fixed so far in respect of any of Pharmaceu

Draft order

Sir,

Draft below

fwi 3.7.37

Secy 22.7.37

Secy

Note continued

b) Board's Lr. Chq. No. HH1 HH4, 31 A/23-7 31

the ACD Pe No. 184/3/37 A/7-8-37

In the circumstances detailed by the ACD. his proposal at p 2 cf is for may be approved (c) it ~~is worthy of~~ consideration if the ACD should inspect the Pharmaceutical Laby of Father Muller's Institutions once a year & each inspection should last for a period not exceeding 14 days. ~~Recommended.~~

(b) 14/11/37 Please see portion marked 'A' on page 6 cf. The A.C.D draws attention to C.S No 33 p. 171. D.M. Vol II No S.O 165 for the duration fixed for an inspection by the Inspector and points out at B' on p 7 c/f that there is no reason why a lesser period should be fixed for the A.C. The duration of inspection of warehouses (other than Pe Bijapur) for an Inspector is 3 days. & the duration of inspection of a warehouse for the A.C.D where there is no Inspector is 4 days - last column item 3. C.S. 33 - page 171 - Drug Manual Vol II

There is no reason why the duration for ACD's inspection of a warehouse ~~where~~ where there is an Inspr should be the same as that of a warehouse where there is an Inspr. The A.C.D states that for all intents and purposes the Laboratory is a warehouse

Rather Muller's Pharml Laboratory appears not to have been inspected by the ACS so far. Three days may be fixed for the present. If on actual working the ACS finds the need to have the duration extended he may address the Board then

Fair order -

Ins 16/8/37

For all the big Warehouses with immovable machinery in the Presy the max. period given is 4 days. The Pharm. Lab is a small concern & cannot take up more than 3 days. From the Statement at (L) it will be seen that during the last 3 or 4 years, the ACS invariably completed the inspns of Pharm. Labs. in 1 or 2 days except once in 1934 on which he took 3 days. The ACS's inspection is not so detailed or minute as an Inspr's — 3 days' period for inspn. may be fixed — as suggested for the Mangalore Pharm. Lab for the present

Fair copy book CS 183

Mr Ward is evidently trying to waste his time. He thinks 4 days necessary. His recommendation may be accepted.

30/8

Note continued

Draft is submitted for approval. Please

2.9.37

See the ACDI report at 6.2 Ch. Where he has stated that he may be required to visit the Lab once a year. A para has been included in the draft this issue under the heading Foreign Expert. For orders.
